Open Eco-homes

Inspiring low-energy eco-homes open to the public

A chance to look inside twenty remarkable eco-homes of all ages and types, and find **practical and inspiring ideas** on how to make your own home **warmer, brighter, healthier, cheaper** to run and ready for the climate change century.

Learn from the home owners themselves about super-insulation, waste water recycling, straw-bale walls, low-energy lights & appliances, ground source heat pumps, solar heating, turf roofs, and much more.

Suggested donation: £2/adult

For more information on eco-renovation see:

www.ecovation.org.uk

This project is organised by Climate Outreach & Information Network

(COINet.org.uk) and Oxfordshire ClimateXchange (climateX.org) with generous support from:

Green upgrade. Made Simple. www.green-upgrade.com 01865 339 468

Fund for the Environment & Urban Life THE GRAM FOUNDATION, INC.

OXFORDSHIRE COUNTY COUNCIL www.oxfordshire.gov.uk

For details of the homes, maps & opening times, please pick up a leaflet from your local library or see:
